Ajustez la hauteur des tubes à l'aide des différents niveaux de trous

Une fois les tubes réglés à la bonne hauteur, fixez la vis

Faites pivoter la manivelle pour ajuster la hauteur d'1,5cm

- ① Tournez dans le sens inverse des aiguilles d'une montre, le tube va se raccourcir
- ② Tournez dans le sens des aiguilles d'une montre, le tube va se rallonger

Assurez-vous que les pièces H2 soient de la même taille
Assurez-vous que les pièces H3 soient de la même taille
